WHY CHOOSE ANDY'S ROOFING?

1

Easy to Work With

We know that there are many roofing companies to choose from. That's why we strive to be the easiest subcontractor you've ever worked with. From our friendly and responsive office staff, to our proactive and knowledgeable production team, we will install a roof that you can be proud to deliver to your client.

2

Competitive Pricing

When it's bid day, you can't afford to guess a subcontractor's scope. That's why our competitive estimates focus on clear and complete pricing. When you work with Andy's Roofing, you can be sure that we have thoroughly reviewed the construction documents and have included everything needed to provide a complete and warrantable roof system.

3

Rapid Response Time

Construction moves quickly and unnecessary delays can be the difference between an award-winning project and a nightmare. Whether it's promptly turning around price requests or immediately mobilizing our crew to the site, we understand the urgency required to adhere to tight construction schedules. And we will get it done!

4

Serious Safety

Hiring an unsafe subcontractor is a tremendous liability. Before stepping foot on your jobsite, each of our roofing installers goes through an extensive, in-house safety training program, which focuses on the most prevalent roofing and general construction hazards. We also employ a full-time Safety Manager who ensures that our roofing installers consistently adhere to our comprehensive Code of Safe Practices.

ABOUT US

Andy's Roofing Company, Inc. is a family owned and operated roofing company, specializing in commercial and public works roofing and waterproofing projects in the San Francisco Bay Area.

Originally founded in 1957, Andy's Roofing has over 60 years of experience installing all types of low and steep-slope roofing applications, as well as waterproofing.

At Andy's Roofing, customer satisfaction is our highest priority. Our length of service in the Bay Area's construction industry speaks to our commitment to working within our clients' budgets to install a beautiful, high quality roof.
